Poplite® Specialty Panels

The PopLite® line of high quality, lightweight, eco-friendly, and versatile specialty panels is manufactured with various finishes, cores, species, and glues. PopLite® specialty panels cover a wide range of applications that require a light weight combined with excellent strength-to-weight ratio and workability.

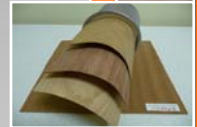

PRODUCTION

Traditionally quality oriented, efficient and flexible production with top-of-the-line processing equipment. ISO 9001 certification reflects our commitment to quality and customer satisfaction. PopLite® specialty panels are safe to handle, process and dispose. Class E-1 or better with respect to formaldehyde content. Green products with LEED credit support. FSC & CARB certified available.
